Get **SMART**

Using **SMART** technology, the TMR x Series **shipping** application allows you to process parcels through Royal Mail quickly and easily, with free confirmation of delivery. Plus, the software means you can control **mailing** and ship from your desktop PC.

Users can set up specific **accounts**, allowing for greater level of granularity, easily produce informative **reports** and graphs to provide the details needed and safely **track** where your items are.

Shipping

- View rates and services from one screen. SMART will automatically rate shop to identify the lowest cost or fastest delivery method of processing parcels, saving time and money.
- Assign printing permissions to users outside of the mail centre with Desktop Print, providing user flexibility and decreasing mail centre workload.
- Establish potential cost saving opportunities, decrease the number of work steps to process items, and better organise multi-package shipments.

Mailing

- Quickly select the rate, seal envelopes and print discounted Mailmark postage.
- Large descriptive buttons and prompts make navigation a breeze.
- The Rate Wizard simplifies selecting the correct postal rate and class. With clear step-by-step instructions, the selection process has never been easier.

Accounting

- Postal account reporting tracks spending, providing the tools you need to stay on top of expenses.
- Chargeback accounting lets you bill vendors, customers or departments for mailing/shipping costs and allows you to recoup postage costs that would otherwise slip through the cracks.
- Consolidates usage data to help manage budgets and charges for your letters and parcels across all your departments.

Reporting

- Generate postage expense reports by mail class, weight break, pre-sort, ascending and descending register values, account/department, operator, cost centre, pre-defined or custom time periods – and more!
- Set it and forget it – SMART's report scheduler automatically runs and emails reports to a designated recipient or group based upon user-defined parameters

Tracking

- Free confirmation of delivery on all parcels at no extra cost. All tracked services ID's are stored for up to 13 months.
- Keep your customers informed by providing delivery email alerts each step of the way.
- Obtain consolidated views of your mail centre's activities to better manage mailing and shipping operations.

Leading Edge Technology. Simple Navigation. Fuelling stronger business communications. The TMR x Series with SMART will revolutionise your mail centre operations. If you would like more information, please get in touch.
