

# TMR x70/x75

## SMART high performance modular mailing system

- Simple and fast mail processing
- Differential and weighing options
- Whisper-quiet and parcel ready
- Automatic mixed size feeder
- SMART online services

### The Innovative Mailing System

Dynamic businesses count on smart productivity tools to do more than simply move the mail. The TMR x70/x75 takes post and parcel processing to a new level of intelligence and delivers productivity at its best.

With SMART technology and online services under your control, you'll have the best-in-class solution to meet your demanding mail room needs.

Easy to use, the highly capable TMR x70/x75 with whisper-quiet operation is fast and efficient. Improving productivity, providing cost control with added reporting and tracking to enhance business opportunities and objectives in organisations where mail handling must be optimised.

### Dynamic & User-focused

- 1 Mixed-Size Mail Feeder
- 2 Easy to use colour touchscreen
- 3 High Speed Connectivity
- 4 Dynamic Scale (x75)
- 5 SMART Desktop Dashboard

Process a wide range of mail and packages simply and efficiently to save time.

Manage mailing, reporting and parcel shipments from one centralised interface

Authorised independent inspector and maintainer of franking machines

We go **Beyond Mailing**

Mail Management | Mailing Equipment | Postal Discount | Complete Support

## Flexibility & Efficiency

The polished look of the TMR x70/x75 mailing system defies its impressive ability to handle your mailroom's most difficult jobs. Ideal for mid to high-level mail volumes.

### Desktop Printing

Print your shipping labels for parcels that easily affix to your goods with the optional label printer

### Weighing Options

Weigh accurately with external 3, 5, 10 or 35kg platforms available.

### Dynamic Accuracy

Dynamic scale automatically categorises based on shape and weight, then accurately rates mail.

Coupled with SMART this complete suite offers a one-stop approach to processing, tracking, reporting and reconciling postage expenses for mail and parcels.

## SMART Post & Parcel Technology

### Shipping

Check rates and ship packages from your desktop.

### Mailing

Quickly select and Frank discounted postage rates.

### Accounting

Ensure postage spend and split billings stay aligned.

### Reporting

Produce reports by mail class, department and more.

### Tracking

Stay informed via parcel alerts and confirmed delivery.

# Get **SMART**

Using **SMART** technology, the TMR x Series **shipping** application allows you to process parcels through Royal Mail quickly and easily, with free confirmation of delivery. Plus, the software means you can control **mailing** and ship from your desktop PC.

Users can set up specific **accounts**, allowing for greater level of granularity, easily produce informative **reports** and graphs to provide the details needed and safely **track** where your items are.

## Shipping

- View rates and services from one screen. SMART will automatically rate shop to identify the lowest cost or fastest delivery method of processing parcels, saving time and money.
- Assign printing permissions to users outside of the mail centre with Desktop Print, providing user flexibility and decreasing mail centre workload.
- Establish potential cost saving opportunities, decrease the number of work steps to process items, and better organise multi-package shipments.

## Mailing

- Quickly select the rate, seal envelopes and print discounted Mailmark postage.
- Large descriptive buttons and prompts make navigation a breeze.
- The Rate Wizard simplifies selecting the correct postal rate and class. With clear step-by-step instructions, the selection process has never been easier.

## Accounting

- Postal account reporting tracks spending, providing the tools you need to stay on top of expenses.
- Chargeback accounting lets you bill vendors, customers or departments for mailing/shipping costs and allows you to recoup postage costs that would otherwise slip through the cracks.
- Consolidates usage data to help manage budgets and charges for your letters and parcels across all your departments.

## Reporting

- Generate postage expense reports by mail class, weight break, pre-sort, ascending and descending register values, account/department, operator, cost centre, pre-defined or custom time periods – and more!
- Set it and forget it – SMART's report scheduler automatically runs and emails reports to a designated recipient or group based upon user-defined parameters

## Tracking

- Free confirmation of delivery on all parcels at no extra cost. All tracked services ID's are stored for up to 13 months.
- Keep your customers informed by providing delivery email alerts each step of the way.
- Obtain consolidated views of your mail centre's activities to better manage mailing and shipping operations.

Leading Edge Technology. Simple Navigation. Fuelling stronger business communications. The TMR x Series with SMART will revolutionise your mail centre operations. If you would like more information, please get in touch.
