TMR **c120**

Handle bulk mail processing quickly and easily.

Easy to Use

- Easy-to-use, Android-based 7" colour touchscreen for simple operation.
- Print up to 120 letters per minute thanks to the automatic feeder.
- Intuitive menus make for easy selection and completion of jobs quick and accurate.
- Support options such as notifications, diagnostics and support articles and how-to videos to support users.
- Apply postage to larger flats and letters easily with the included strip tape dispenser.
- Smoothly feed your mail with our reverse separation technology.

The TMR c120 is a powerful franking machine designed to be an efficient and cost-effective solution for businesses of all sizes, providing a quick and easy way to handle large volumes of mail and save time and money on postage. It makes understanding and realising greater cost and time savings easy. By leveraging cloud technology, these innovative machines deliver high value and convenience through superior analytics and easy-to-use features and services.
